

Modeling Marine Ecosystems with Virtual Reality: Observations & Models Module Worksheet #1

Estimated Temperature (inland and coastal)

What do you think the temperature of Middleton is, based on the temperatures at Coolville and Warmville? Is there anything in the geography where the towns are located that would affect the temperature in Middleton? How would the inland estimate of temperature in Middleton differ from the coastal estimate? Record your estimates for the temperature in Middleton in the table below.

Town	Temperature	
	Inland	Coastal
Coolville	10° C (50° F)	10° C (50° F)
Middleton		
Warmville	20° C (68° F)	20° C (68° F)
